

Quick Release Bicycle Seatpost Clamp

This quick release seatpost clamp enables tool-free adjustment of bicycle seat height. It features a lever mechanism for quick opening and closing.

Product Overview

Quick Release Seatpost Clamp

This quick release seatpost clamp is designed for bicycles, enabling easy and tool-free adjustment of the seat height. The clamp features a reliable lever mechanism for rapid opening and closing, securely holding the seatpost in place. Constructed from durable metal alloy with a user-friendly black plastic knob, it is ideal for cyclists who require frequent seat height adjustments or convenient seatpost removal.

Technical Specifications
