

## Quick Release Bit Holder Set

This set contains two quick-release bit holders for power drills and impact drivers. The bit holders come in 60mm and 150mm lengths and feature magnetic tips.

### Product Overview

#### Professional Quick Release Set

This two-piece quick-release bit holder set is engineered for efficiency, allowing for rapid and secure bit changes during drilling and fastening tasks. Featuring magnetic tips for superior bit retention, the set includes two distinct lengths to accommodate a variety of workspace requirements. Designed for compatibility with power drills and impact drivers, these holders offer a reliable and versatile solution for professional applications.
