

R134a 90-Degree Quick Coupler Set

This R134a quick coupler set features 90-degree connectors for automotive air conditioning systems. The connectors allow the connection of multiple hoses.

Product Overview

Professional R134a Quick Coupler Set

This 90-degree quick coupler set is engineered for efficient and reliable handling of R134a refrigerant in automotive air conditioning systems. The set includes both high and low-pressure connectors designed for secure, leak-free operation. Featuring a 90-degree angle, these couplers are ideal for accessing service ports in tight or confined engine bays.

Technical Specifications

Compatible Refrigerant	R134a
Connector Angle	90-Degree
Thread Size	1/4" SAE M14*1.5

Construction & Materials

Materials	Copper, Aluminum
