

R134a AC Quick Coupler Set

This R134a AC quick coupler set allows connection of multiple hoses in automotive R134a air conditioning systems. The set includes high and low-side couplers for secure and leak-free connections during A/C service and diagnostics.

Product Overview

R134a AC Quick Coupler Set

This 90-degree quick coupler set is engineered for reliable use with R134a refrigerant systems. Featuring a durable construction of copper and aluminum, the set includes both high-side and low-side couplers designed to provide secure, leak-free connections during automotive AC diagnostic and service procedures. The intuitive push-and-lock mechanism ensures quick attachment and detachment, making it an essential tool for professional HVAC maintenance.
