

R134a Refrigerant Manifold Gauge

This manifold gauge is designed for use with R134a refrigerant. It features a high-precision pressure gauge with class 1.6 accuracy and a metal-embedded valve for increased strength.

Overview

Professional R134a Manifold Gauge

This R134a refrigerant manifold gauge is engineered for reliability and precision in automotive and HVAC maintenance. It features a high-precision class 1.6 accuracy gauge and a robust metal-embedded valve design for increased strength. The unit is protected by a specialized anti-collision sheath and includes a high-strength 12mm rubber tube to ensure dependable operation in demanding environments.

Technical Specifications

Gauge Accuracy Class	1.6
Tube Diameter	12 mm

Design & Construction

Construction Features

- Anti-collision protective sheath
- Metal-embedded valve design
- High-strength rubber tubing

Applications

Typical Use Cases

Automotive • HVAC

Compatible Refrigerants	R134a
