

R20P Super Heavy Duty Battery

This super heavy duty battery is designed for general purpose applications. The R20P size ensures compatibility with a wide range of products.

Product Overview

Reliable Power for Everyday Applications

These Super Heavy Duty batteries are engineered for general-purpose applications, providing a dependable and cost-effective power solution for low-drain devices. Designed with environmental responsibility in mind, the construction is completely free of mercury and cadmium. The standard R20P size ensures broad compatibility across a wide range of professional and consumer equipment.

Technical Specifications

Nominal Voltage	1.5 V
Battery Size	R20P (UM-2)

Compliance & Environmental

Environmental Standards	Mercury Free, Cadmium Free
