

R22 Refrigeration Compressor

This hermetically sealed compressor is designed for refrigeration applications using R22 refrigerant. It is constructed for durability and reliable performance in air conditioning systems and refrigeration units.

Product Overview

Reliable Refrigeration Solution

This hermetically sealed compressor is specifically engineered for high-performance refrigeration and air conditioning applications utilizing R22 refrigerant. Built with a focus on durability, the unit ensures consistent cooling capacity and reliable operation in demanding cooling environments. Designed for seamless integration, it includes standard connections, vibration damping, and noise reduction technology for quiet and efficient performance.

Technical Specifications

Suitable Applications

- Air conditioning systems
- Refrigeration units
- General industrial cooling

Compatible Refrigerant	R22
Design	Hermetically Sealed, Vibration Damped, Noise Reduced
