

R410A Refrigerant Manifold Gauge

This manifold gauge is designed for use with R410A refrigerant. It features high precision pressure gauges with class 1.6 accuracy and a metal-embedded valve.

Product Overview

Professional Refrigerant Manifold Gauge

This R410A refrigerant manifold gauge is engineered for precision and durability in HVAC/R diagnostic, evacuation, and charging applications. It features a robust design with a specialized anti-collision sheath and metal-embedded valves to withstand demanding field conditions. With high-accuracy pressure measurement and high-strength rubber tubing, this tool ensures reliability for professional technicians.

Technical Specifications

Accuracy Class	1.6
Tube Diameter	12 mm

Construction & Design

Key Design Features	Anti-collision sheath, Metal-embedded valve, High-strength rubber tube
---------------------	--

Measurement Capabilities

Pressure Units

- kg/cm²
- bar
- PSI
- kPa

Compatible Refrigerant

R410A
