

R600A Isobutane Refrigerant

This isobutane refrigerant is suitable for various refrigeration applications. It offers excellent thermodynamic properties, leading to energy-efficient performance in refrigeration systems.

Product Overview

Natural Refrigerant Solution

R600A, also known as isobutane, is a high-performance natural hydrocarbon refrigerant widely utilized in domestic refrigerators, freezers, and small commercial cooling systems. It is recognized for its excellent thermodynamic properties, which contribute significantly to the energy efficiency of refrigeration units. As an environmentally conscious choice, R600A features zero ozone depletion potential and very low global warming potential.

Technical Specifications

Primary Applications

Refrigerant, Aerosol, Rubber Synthesis, Fuel, Aviation Gas

Logistics and Packaging

Available Package Sizes

- 6.5 kg Cylinder
- 50 kg Cylinder
- 1000 kg Container
- ISO Tank
