

Radial Tire - MK-700

The MK-700 is a radial tire designed for reliable performance and durability. It features a tread pattern optimized for all-season traction, providing confident handling in various weather conditions.

Product Overview

Reliable Performance and Durability

The MK-700 is a radial tire engineered for consistent performance and long-lasting durability. Designed with an all-season tread pattern, it ensures confident handling and traction across various weather conditions. Its robust construction utilizes high-quality materials to resist road hazards, while the optimized sidewall design promotes stability and a smooth, comfortable ride for a wide range of commercial and passenger vehicles.

Technical Specifications

Tire Specifications Table

Size	LI/SI	Rim (ins)	Tread Depth (mm)	Max Pressure (PSI)	PR
175R13C	92/90 S	5.00B	7.5	51	6
175R13C	97/95 S	5.00B	7.5	65	8
165R14LT	96/95 S	4 1/2J	7.5	65	8
165R14LT	91/90 S	4 1/2J	7.5	51	6
