

# Radiant Halogen Space Heater

This halogen heater is designed for space heating purposes. The heater utilizes radiant heat via multiple halogen elements protected by a grille, all within a portable unit.

## Product Overview

### Efficient Radiant Heating

This radiant halogen space heater is designed for efficient, localized warming in indoor environments. Featuring three distinct power settings and multiple halogen bars, it offers customizable heat output to suit various comfort needs. With built-in safety features like a tip-over switch and cool-touch housing, it is a reliable solution for personal heating.
