

Radiant Space Heater

This electric heater is designed for indoor space heating. It features a rectangular housing with a protective grille covering the heating elements and simple controls.

Product Overview

Efficient Radiant Heating

This radiant space heater utilizes advanced halogen tube heating technology to deliver high thermal efficiency and rapid warmth. Designed for quiet operation, it ensures a comfortable environment without disruptive noise. The unit features a wide-angle oscillating function for broader heat distribution and includes built-in safety mechanisms for reliable indoor use.

Performance

Power Output

400 W

Low Setting

800 W

Medium Setting

1200 W

High Setting

Key Features

- Quiet operation
- Wide angle oscillation
- Rapid heating

Heating Method

Halogen Tube, Radiant, High Efficiency

Physical Specifications

Dimensions 350 x 155 x 650 mm

Gross Weight 3.9 KG

Net Weight 3.3 KG
