Product Overview

Professional-Grade Facial Rejuvenation

This advanced facial rejuvenation device integrates Radio Frequency (RF), infrared energy, and red light therapy to provide comprehensive skin care. Designed for efficiency and safety, it features a smart motion detection system and adjustable heating modes for personalized treatment. Its ergonomic, wireless-induction design ensures a seamless user experience for professional-grade skincare results.

Technical Specifications

RF Frequency

1 MHz

RF Current Frequency

Light Therapy Wavelengths

Light Type	Wavelength
Infrared	850nm
Red Light	620nm

Power Ratings

- Input: DC12V 1.5A 18W
- Maximum RF Power: 12W
- Wireless Induction Charging

Physical Attributes

Dimensions	166.5mm x 47.5mm x 24mm
Net Weight	182 g

Compliance & Quality

Certifications

CE, FDA, RoHS

Operating Conditions

Operating Temperature

0-40 +/- 2 °C
