

Ratchet Terminal Crimping Tool for Insulated Terminals

This ratchet crimping tool is designed for pre-insulated terminals and full insulation mediate connectors. It is suitable for insulated terminals with AWG sizes ranging from 22-18, 16-14, and 12-10, and DIN sizes ranging from 0.5-1.0 mm², 1.5-2.5 mm², and 4-6 mm².

Product Overview

Professional Ratchet Crimping Tool

This high-performance ratchet terminal crimping tool is engineered for pre-insulated terminals and full insulation mediate connectors. Featuring a durable 9-inch frame, it ensures consistent, reliable connections for professional electrical installations. The ergonomic design and integrated ratchet mechanism provide precision, reducing hand fatigue during repetitive tasks.

Technical Specifications

Wire Cross-Section Range (DIN)

- 0.5-1.0 mm²
- 1.5-2.5 mm²
- 4-6 mm²

Model Number	HS-30J
Total Length	228 mm
Wire Gauge Capacity (AWG)	22-18, 16-14, 12-10

Application

Compatible Connectors

Pre-insulated Terminals • Full Insulation Mediate Connectors
