

# Ratchet Threading Die Stock Set

This set is designed for creating threads on pipes and rods. It includes a ratchet handle, extension bars, and a variety of die heads in different sizes.

## Product Overview

### Professional Ratchet Threading Die Stock Set

This comprehensive threading set features an enclosed ratchet system designed for quick and efficient die-head changes during plumbing and construction tasks. The off-centered handle allows for comfortable operation even in confined, hard-to-reach areas. Compact and portable, the entire kit is housed in a reinforced plastic carrying case, making it an ideal choice for maintenance professionals and field technicians.
