

Ratchet Tie-Down Strap

This is a ratchet tie-down strap used for securing and tightening loads. It features metal hooks and a ratchet mechanism.

Product Overview

Professional Grade Ratchet Tie-Down Strap

This heavy-duty ratchet tie-down strap is designed for secure cargo transport and load stabilization. Featuring a robust galvanized steel ratchet mechanism and durable metal hooks, it provides reliable tensioning power for various logistics and industrial applications. The high-strength webbing ensures safety and longevity during transit.

Technical Specifications

Application

Cargo Securing • Logistics • Industrial Use

Item Number

1301

Mechanism Material

Galvanized Steel

Components

Ratchet Mechanism, Metal Hooks, Webbing Strap
