RCA Plug - RCA Plug Metal
Plug 24K Gold Plated
Mesh Jacket
OFC Conductor

Product Overview

High-Performance Audio/Video Connectivity

This RCA audio and video cable is engineered for reliable signal transmission, featuring 24K gold-plated connectors that resist corrosion and ensure optimal contact. Built with high-quality oxygen-free copper (OFC) conductors, it delivers enhanced audio clarity and signal integrity. The durable mesh jacket provides both flexibility and protection, making it a robust solution for professional A/V setups.

Technical Specifications

Model Number	LM01-2091
Core Material	Bare copper wire
Conductor Type	OFC (Oxygen-Free Copper)

Design & Build

Connector Finish	24K Gold-Plated
Connector Material	Metal
Cable Exterior	Mesh Jacket
Colour	Black

Features

Key Features

- Corrosion-resistant gold-plated plugs
- Enhanced signal transfer
- Durable mesh protective jacket
- High-clarity OFC conductor
