

# RCA Connector Cables - Color-Coded Audio/Video Cables

These RCA connector cables transmit audio and video signals between devices. The color-coded plugs allow easy identification and connection to DVD players, stereos, and televisions.

## Product Overview

### High-Quality AV Connectivity

The OCAV-15-6011 is a reliable 3RCA plug to 3RCA plug cable designed for seamless audio and video signal transmission. Featuring a transparent cable design, it offers a clean aesthetic while ensuring secure connectivity for devices like DVD players, stereos, and televisions. The color-coded plugs simplify installation, making it an ideal choice for professional and home entertainment setups.
