

RCA to RCA Audio Video Cable

This audio video cable is designed for transmitting analog audio and composite video signals. It features color-coded RCA connectors for connecting audio and video devices, such as DVD players and stereos.

Overview

High-Performance Analog Connectivity

This RCA to RCA audio/video cable is engineered for reliable transmission of analog audio and composite video signals. It features color-coded connectors to ensure quick and error-free installation across a wide range of legacy and modern equipment. Designed for durability and consistent performance, it is an ideal solution for connecting DVD players, VCRs, and stereo systems.

Technical Specifications

Compatibility

- DVD Players
- VCRs
- Stereo Systems
- Audio/Video Receivers

Key Features

Color-coded connectors • Reliable signal transfer • Easy installation

Connector Type	RCA (Male to Male)
Supported Signals	Analog Audio, Composite Video
