

RCBO Circuit Breaker with Earth Leakage Protection

This RCBO circuit breaker provides protection against overload, short circuit, and earth leakage faults. It has a clear on/off indication and a test button for regular functionality checks.

Product Overview

Detailed view of the breaker unit showing the test button, status indicators, and current rating labels.

Reliable Earth Leakage Protection

The NT50LE residual current circuit breaker is designed to provide essential safety and protection against overload, short circuit, and earth leakage faults. This compact device features a clear on/off status indication and an integrated test button for regular functionality checks, ensuring peace of mind in residential and commercial electrical systems. With multiple configuration options and a robust design, it offers dependable performance for various electrical installation requirements.

Technical Specifications

Overview

Quick Details

Place of Origin:	Zhejiang, China	Brand Name:	seica.e
Model Number:	NT50LE	Type:	Earth Leakage
Poles Number:	2	Pole:	2P1E 2P2E
rated voltage:	220	Rated current:	6,10,16,20,25,32A
Product name:	NT50LE residual current circuit breaker RCCB		

Supply Ability

Supply Ability: 2000 Piece/Pieces per Week

Packaging & Delivery

Packaging Details: IN CTNS
Port: NINGBO SHANGHAI

Technical summary of the NT50LE series, highlighting key electrical parameters and configuration options.

Available Rated Currents

- 6
- 10
- 16
- 20
- 25
- 32

Rated Voltage	220 V
Earth Leakage Sensitivity	30 mA
Pole Configuration	2P1E, 2P2E

Logistics

Weekly Supply Ability

2000 pcs
Units per Week

Packaging Method	Cartons (CTNS)
Shipping Ports	Ningbo, Shanghai
