

Rear Bumper

This rear bumper is designed for vehicle auto body systems. It provides protection to the rear of the vehicle in the event of a collision and enhances the vehicle's aesthetic appeal with its smooth, curved design.

Overview

Premium Rear Bumper Protection

This rear bumper is engineered to provide robust impact protection for your vehicle, ensuring structural integrity in the event of a collision. Constructed from high-quality, durable dark-colored plastic, the unit combines safety performance with a sleek, aerodynamic design. It features an integrated layout that facilitates easy installation and includes pre-molded sections for exhaust outlets to maintain vehicle functionality and aesthetics.
