Overview

High-Performance Recessed COB Lighting

This recessed LED ceiling light is engineered for professional-grade residential and commercial applications. It features a high-accuracy reflector and Chip-on-Board (COB) technology to deliver focused, efficient, and bright illumination. Built with a diecast aluminum heat sink, the fixture ensures optimal thermal management for a prolonged operational lifespan.

Design & Construction

Outer Ring Material	Engineer Level Plastic
Thermal Management	Diecast Aluminum heat dissipation design
Reflector System	High accuracy reflector for maximized light output

Technical Specifications

Light Source

COB LED • Chip-on-Board

Installation Type

- Recessed ceiling mount
- Spring-loaded mounting clips
- Secure orange tension clips

Applications

Recommended Applications	Residential, Commercial, Indoor Lighting, Focused Illumination
