Product Overview

High-Performance Recessed COB LED Downlight

This recessed COB (Chip-on-Board) LED downlight is engineered for efficient, focused illumination in various professional settings. Featuring a robust white circular housing and an integrated reflector system, it minimizes glare while maximizing light output. Designed for durability and thermal efficiency, it includes a heat sink for long-lasting performance, making it an ideal choice for commercial, hospitality, and high-end residential applications.

Technical Specifications

Electrical Requirements

220 V

Input Voltage

50 Hz

Frequency

Model Dimensions & Cutout Guide

Wattage	Product Size (mm)	Cut Size (mm)
7W	98*46	75-85
10W	115*47	95-105
15W	140*49	120-130
20W	160*50	130-150
30W	196*60	160-185
40W	225*70	180-215
50W	225*95	180-215

Installation & Design

Key Features

Recessed Mounting, Spring Clips Included, Integrated Heat Sink, COB Technology
