Recessed In-Ground LED Uplight

This recessed LED uplight is designed for in-ground installation. It provides upward illumination for architectural and landscape lighting, suitable for outdoor use.

Product Overview

Professional Grade In-Ground Lighting

This recessed in-ground LED uplight is engineered for architectural and landscape lighting applications, providing reliable upward illumination. Featuring a robust square stainless steel trim and a durable black housing, it is designed for seamless flush-mount integration into pathways, gardens, and driveways. The fixture utilizes four high-quality LED light sources protected by a resilient glass lens, ensuring long-lasting performance in outdoor environments.
