

Rechargeable ABS Mini LED Torch Light

This rechargeable mini LED torch light is designed with a compact and durable ABS body. It is ideal for checking money and provides high-intensity illumination.

Product Overview

Compact Rechargeable Lighting Solution

This versatile mini LED torch light is constructed from durable ABS material, making it an ideal tool for both indoor and outdoor lighting needs. It features a convenient dual-mode switch that toggles between a standard flashlight and a money-checking lamp. With a long-lasting 1200mAh battery and rapid 4-hour charging, this portable device provides reliable illumination for emergencies, camping, or daily carry.
