Product Overview

Award-Winning Design and Performance

This Reddot Design Award-winning rechargeable DC electric fan combines contemporary aesthetics with high-performance cooling technology. Featuring a brushless (BLDC) motor and versatile power options, it offers precise control through 12 speed settings and multiple wind modes. Its durable aluminum alloy and anti-ultraviolet ABS construction ensure longevity, while the integrated lithium-ion battery provides cordless convenience for up to 10 hours of operation.

Technical Specifications

Motor Power	30 W
Speed Gears	12
Oscillation Angles	30°, 60°, 90°, 120°

Performance Metrics

Battery Performance

10 hours Runtime (Low Speed)	1.5 hours Runtime (High Speed)	6 hours Charging Time
