Product Overview

Efficient Pest Control Solution

This rechargeable electric mosquito swatter combines effective insect elimination with user-friendly design features. Equipped with a high-capacity lithium battery, it offers cordless, long-lasting operation suitable for both indoor and outdoor environments. The integrated LED light enhances visibility in low-light conditions, while the multi-layered mesh grid ensures safe and immediate contact-based pest control.

Key Features

Power Source	Rechargeable Lithium Battery
Integrated Lighting	Yes
Usage Environment	Indoor, Outdoor
