

Rechargeable Electric Wine Opener with Foil Cutter

This electric wine opener features a USB interface for convenient charging via PC or AC/DC adapter. It automatically pulls out and releases the cork with a built-in LED operating light.

Product Overview

Professional Electric Wine Opener

This rechargeable electric wine opener offers a seamless and efficient way to uncork wine bottles in just 8 seconds. Designed with a sleek, ergonomic decagon shape, it combines modern aesthetics with practical, eco-friendly functionality. The device is powered by a reliable built-in battery, making it a perfect, portable solution for both home kitchens and professional bar settings.
