

Rechargeable Emergency Lantern with Fluorescent Tube

This rechargeable lantern includes a 7W energy-saving fluorescent tube and an LED torch. It is designed to automatically light up when there is a power failure.

Product Overview

Versatile Emergency Lighting

This rechargeable emergency lantern is designed for reliable illumination during power failures and outdoor activities. It features a dual-lighting system consisting of an energy-saving fluorescent tube for area coverage and an integrated LED torch for focused beam needs. The robust design and portable handle ensure it is an ideal solution for emergency preparedness and camping environments.
