

Rechargeable Evaporative Mini Air Cooler

This mini air cooler provides personal cooling through evaporative technology. It features adjustable fan speeds and can be powered by AC or DC.

Overview

Compact Evaporative Cooling

This portable evaporative mini air cooler offers a versatile cooling solution for small, personal spaces. Featuring a honeycomb cooling media and a detachable 800ml water tank, it efficiently lowers ambient temperatures through natural evaporation. With both AC and DC power options, including a rechargeable battery, it ensures consistent performance whether you are at a desk or on the go.

Performance Metrics

Cooling Performance

3 m/s

Fan Speed

20 m³/hr

Air Flow

40 ml/hr

Evaporation Rate

Power & Battery

Power Specifications

- Input Voltage: DC 7.5V
- Power Consumption: 9W
- Motor: DC 6V Brushless Motor

Battery Performance

Feature	Specification
Battery Type	Sealed Lead Acid (6V/2Ah)
Charging Time	12 hours
High Speed Runtime	Approx 2.5 hours
Low Speed Runtime	Approx 4 hours

Physical Dimensions

Unit Dimensions

130 x 125 x 300mm

Logistics

Shipping Information

Container Type	Capacity
20'FT	2,940 pcs
40'FT	5,880 pcs
40'HQ	7,080 pcs
