

# Rechargeable Fluorescent Tube Lantern with Stand

This rechargeable lantern uses 2x20W fluorescent tubes for illumination. It can be wall-mounted or used with its integrated stand and features automatic light-up during power failures.

## Product Overview

### Versatile Illumination Solution

This rechargeable fluorescent lantern provides reliable illumination for both emergency and general use. Featuring a dual-mode operation, it supports both AC and DC power sources to ensure functionality during power failures with an automatic light-up feature. Designed for maximum versatility, the unit includes both wall-mounting capabilities and a fold-out stand for stable placement on flat surfaces.
