

Rechargeable LED and Fluorescent Portable Lantern

This rechargeable lantern combines LED and fluorescent lighting. It features automatic light-up during power failures.

Product Overview

Versatile Emergency Lighting

This rechargeable portable lantern provides a dual-function lighting solution suitable for both task and area illumination. It features an integrated LED torch for focused beams alongside a 7W energy-saving fluorescent tube for broader coverage. Designed for reliability, the unit offers automatic activation during power failures, making it an essential tool for professional environments and emergency preparedness.
