Product Overview

Professional Long-Range Illumination

This high-performance rechargeable LED torch is engineered for demanding industrial, emergency, and outdoor environments. Featuring powerful SMD LED technology and a versatile 360-degree rotating light, it provides reliable, long-range illumination. Its rugged construction and automatic light-up functionality during power outages make it an essential tool for safety and maintenance professionals.

Technical Specifications

LED Configuration

7 pcs

LED Count

0.5 W

Individual LED Power

Model Number

CR-9042TP

Light Source Type

SMD LED

Features & Functionality

User Interface & Handling

- Ergonomic handle for secure grip
- Integrated control panel
- Built-in charging indicator

Recommended Use Cases

Industrial • Emergency • Outdoor

Operational Modes

Long-range illumination, Automatic light-up on power failure, 360-degree rotating secondary light
