

Rechargeable Ni-MH Battery Assortment

This collection includes AA, AAA, C, D, and 9V Nickel-Metal Hydride (Ni-MH) rechargeable batteries. These batteries deliver long-lasting power and can be recharged, offering an environmentally conscious and economical power option for numerous electronic devices.

Product Overview

High-Capacity Rechargeable Power Solutions

This comprehensive assortment of Nickel-Metal Hydride (Ni-MH) rechargeable batteries offers a versatile and cost-effective power solution for a wide range of electronic devices. Designed for longevity and reliability, these batteries support multiple recharge cycles, making them an environmentally friendly alternative to single-use options. Whether for high-drain equipment or everyday household electronics, this collection provides the essential sizes and capacities needed to keep your devices running efficiently.

Technical Specifications

Capacity and Voltage Details

Battery Type	Capacity	Voltage
AA	2600mAh	1.2V
AAA	900mAh	1.2V
C	5000mAh	1.2V
D	10000mAh	1.2V
9V	250mAh	9V

Available Form Factors

AA, AAA, C, D, 9V

Key Features

Chemistry

Ni-MH • Rechargeable

Primary Benefits

- Environmentally friendly design
- Cost-effective long-term use
- Suitable for high-drain devices
- Multiple recharge cycles
