

Rechargeable Oscillating Fan with Radio and LED Light

This portable fan provides cordless operation with its rechargeable battery. It features adjustable speed settings, integrated LED lights, and a built-in AM/FM radio.

Product Overview

Versatile Multi-Function Cooling Solution

This rechargeable oscillating fan is designed for versatility, providing cooling, illumination, and entertainment in a single portable unit. Equipped with a reliable sealed lead-acid battery, it offers cord-free operation perfect for indoor or outdoor use. The integrated AM/FM radio and adjustable LED light panel make it an ideal emergency or lifestyle companion.
