

Rechargeable Portable Box Fan with LED Light

This rechargeable box fan is designed for personal cooling. It features multi-speed control, a rechargeable battery, and an integrated LED light.

Product Overview

Portable Cooling Solution

This rechargeable box fan offers a versatile and portable solution for personal cooling needs. Equipped with a dual-speed fan and an integrated LED light, it is designed for both comfort and convenience in various settings. With a long-lasting lithium-ion battery system, it provides reliable performance even when away from power outlets.
