

Rechargeable Portable Emergency Lantern

This portable rechargeable emergency lantern is designed for reliable illumination during power outages. The lantern features a durable housing, fluorescent tubes, and a convenient carrying handle, offering a 275-degree view.

Product Overview

Professional Emergency Illumination

The TK-386 portable emergency lantern is engineered for high-performance reliability during power outages. It utilizes dual 6W fluorescent tubes to provide wide-angle 275-degree illumination. Designed with safety in mind, it features built-in overcharge and overdischarge protection to ensure the longevity of the sealed lead-acid battery.
