

Rechargeable Portable Fan with Lamp and Radio

This rechargeable fan includes a sealed lead-acid battery. It features fluorescent tubes for lighting, a rotatable fan, and an AM/FM radio.

Product Overview

Versatile Emergency Companion

This multifunctional portable device combines essential utilities into one compact unit, featuring a high-capacity rechargeable battery for reliable power. It integrates a rotatable 8-inch fan with dual speed settings alongside a dual-tube fluorescent lamp for versatile lighting. Designed for both convenience and safety, it includes an AM/FM radio and built-in protection circuitry to prevent overcharging and overdischarging.
