

Rechargeable Portable Fluorescent Lantern

This rechargeable lantern features dual 6W fluorescent tubes for bright illumination. It can be wall-mounted and automatically lights up during power outages.

Product Overview

Versatile Emergency Lighting

This rechargeable portable lantern provides reliable, energy-efficient illumination for both indoor and outdoor settings. Designed for versatility, it features a robust handle for easy transportation and a durable housing that ensures longevity. The unit is specifically engineered to provide an automatic light-up function during power failures, making it a critical asset for emergency preparedness.
