

Rechargeable Rotary Shaver with Trimmer

This rechargeable shaver features four round-blade floating heads and a push-out temple trimmer. It operates for 25-30 minutes on a full charge.

Product Overview

Versatile Rotary Shaving Performance

This rechargeable rotary shaver features a four-head floating design to ensure a close and comfortable shave on various contours. It includes an integrated push-out temple trimmer for precise detailing and maintenance of sideburns or facial hair. Engineered for convenience, the device is cordless and includes essential accessories for immediate use.
