

Rectangular Sanding Discs with 8-Hole Dust Extraction

These rectangular sanding discs measure 93x185 mm and have a grit of 40. They feature an 8-hole pattern for efficient dust extraction during sanding.

Product Overview

High-Performance Sanding Solution

These rectangular sanding discs are designed for professional-grade surface preparation on wood, metal, and painted surfaces. Featuring a precise 8-hole pattern, they ensure efficient dust extraction to maintain a clean workspace and prolong abrasive life. Each pack contains 5 high-quality aluminium oxide discs, providing consistent material removal and a reliable finish for demanding sanding tasks.

Technical Specifications
