Product Overview

High-Performance Abrasive Solution

These red alumina sanding discs are engineered specifically for demanding woodworking applications, offering efficient material removal and a consistent, professional-grade finish. Built with a durable aluminum oxide abrasive grain and a secure hook-and-loop backing, they ensure reliability during both coarse stock removal and fine surface preparation. With a comprehensive range of sizes and hole configurations available, these discs are the ideal choice for orbital sanders and power tool applications.

Technical Specifications

Abrasive Material	Red Aluminum Oxide
Available Grits	P36, P60, P80, P120, P180, P240, P320, P400
Backing System	Hook and loop paper
Minimum Order Quantity	1000 pcs/grit

Available Configurations

Dimension and Hole Configuration Table

Item No	Diameter/Size (mm)	Hole Pattern
5002015A	180	8
5002010A	150	8+1
5002011A	150	6+1
5002008A	150	6
5002004A	125	5
5002013A	125	6
5002003A	125	8
