

Red Fixed-Gear Bicycle with Drop Handlebars

This fixed-gear bicycle features a minimalist design with a lightweight frame. It is equipped with drop handlebars, light blue tires and a high-tensile steel frame for durability.

Product Overview

Innovative Dual-Power Fitness Bicycle

This red fixed-gear bicycle features a unique dual-power design, allowing riders to engage both hands and feet for propulsion. Engineered for fitness and efficiency, it enables simultaneous or independent operation of arm and leg movements to maximize physical exertion. With a top speed of 40 km/h, it serves as an effective tool for both fitness training and recreational transportation.
