

Red Plastic Ice Scraper with Ridged Edge

This ice scraper is made of red plastic and features a ridged scraping edge. It is designed to remove ice buildup from surfaces, particularly vehicle windows.

Product Overview

Efficient Ice Removal Tool

This durable red plastic ice scraper is an essential tool for clearing ice buildup from various surfaces. Featuring a specialized ridged edge, it is designed to break through tough ice layers with ease. The handle includes a convenient square cutout, allowing for easy storage and hanging when not in use.
