

Red Porcelain Surface Spark Plug for Motorcycle Engines

This spark plug features a red porcelain surface for enhanced insulation and heat dissipation. It is engineered to withstand high temperatures and provide reliable sparking for efficient combustion in motorcycle engines.

Product Overview

High-Performance Ignition Solution

These red porcelain surface spark plugs are engineered to provide optimal ignition and combustion efficiency for motorcycle engines. Featuring durable construction with enhanced thermal and dielectric properties, they are designed to withstand high temperatures and pressures. This reliable design ensures consistent power, fuel efficiency, and smooth engine operation across a variety of applications.

Technical Specifications

Interchangeable Models

- NGK compatible
- DENSO compatible
- CHAMPION compatible
- BOSCH compatible

Identified Part Markings

BAJA100 • 08TC • MARSHA • JU FENG • A7TC

Electrode Configurations

Iridium-platinum, Multi-ground electrode, V-cut center-electrode, Surface-sparking, Nickel copper, V-groove center-electrode

Service & Quality

Quality Standards

Customizable quality grade based on specific requirements

Delivery Commitment

On-time delivery guaranteed
