

Red Stainless Steel Electric Kettle

This red stainless steel electric kettle is designed for rapid water boiling. It features durable stainless steel construction for longevity and corrosion resistance.

Product Overview

Elegant and Practical Design

This red stainless steel electric kettle combines a sleek aesthetic with professional-grade performance. Built for durability, the stainless steel chassis ensures long-term reliability and resistance to everyday wear. It is an ideal solution for rapid water heating in professional or high-end household kitchen environments.

Technical Specifications

Construction Material	Stainless Steel
Base Rotation	360-degree

Key Features

Product Highlights	Rapid Heating, Anti-Dry Protection, Auto Power Off, Integrated Filter
--------------------	---

Safety & Operation

Safety Compliance

- Automatic power-off after boiling
- Anti-dry protection mechanism
