

# Reflector Compact Fluorescent Lamp

This compact fluorescent lamp features a reflector to focus its beam. It has a long lifespan of 10,000 hours and produces less heat.

## Product Overview

### High-Efficiency Compact Fluorescent Lighting

This Reflector Compact Fluorescent Lamp (CFL) is engineered to provide a highly focused light output, making it an excellent choice for accent and task lighting requirements. By utilizing an integrated reflector design, it effectively directs illumination exactly where needed, minimizing waste and improving efficiency. Built for longevity and performance, this lamp offers a significant service life of 10,000 hours and operates with reduced heat output, making it a reliable choice for professional lighting environments.

## Technical Performance

### Rated Lifespan

**10000 hrs**

Operating Life

### Thermal Efficiency

Optimized for low-heat operation

## Design and Application

### Recommended Applications

- Accent lighting
- Task lighting
- General illumination

### Lamp Technology

CFL, Reflector Type
