

# Refrigerant Assortment for Cooling Systems

This comprehensive assortment includes refrigerants such as HCFC-141b, R-134a, and R-404A. They are suitable for HVAC and refrigeration systems requiring diverse specifications.

## ADDITIONAL IMAGES

## Product Overview

### Comprehensive Cooling Solutions

This assortment provides a complete suite of components essential for HVAC and refrigeration maintenance and installation. The collection features a wide range of industry-standard refrigerants, high-durability copper tubing designed for optimal flow, and robust industrial condensing units. Engineered for professionals, these components ensure reliable performance, system efficiency, and leak-free connections in demanding industrial environments.

## Refrigerant Gases

### Container Formats

- Cylinders
- Cans

### Available Refrigerants

HCFC-141b, R-134a, R-404A, R-407C, R-410A, R-22, R-507

## Copper Tubing

### Tubing Features

- Clean interior surface
- Leak-free connection design
- Minimized pressure drop
- Sealed ends for contamination prevention

## Condensing Units

### Unit Capabilities

- Robust construction
- High-efficiency cooling fans
- Advanced temperature control systems
- Industrial-grade reliability
