

Refrigerant Recovery Vacuum Pump

This vacuum pump is designed for refrigerant applications and features robust construction for durability. It can be operated with both AC and DC power sources.

Product Overview

High-Performance Vacuum Pump

This professional-grade vacuum pump is engineered for efficient evacuation in HVAC and refrigeration applications. Designed for reliability and longevity, it features a robust construction suitable for demanding environments. The unit offers versatile operation capabilities and is built for portability and ease of use.

Technical Specifications

Power Compatibility	AC & DC Operation
Voltage	220V~/50Hz
Power	0.25 HP
Compatible Models	V-i210H, V-i220H

Performance Metrics

Key Performance Metrics

4 CFM

Free Air Displacement

150 Micron

Ultimate Vacuum

220 ml

Oil Capacity
