Overview

High-Efficiency Refrigeration Scroll Compressor

This professional-grade scroll compressor is engineered for demanding medium and high-temperature refrigeration applications. Designed for reliability in commercial settings, it supports diverse cooling systems including cold storage and air conditioning. Its robust construction ensures consistent performance and durability for long-term operation in commercial environments.

Applications

Supported Cooling Methods

Air-cooling • Water-cooling

Primary Applications

Medium Temperature Refrigeration, High Temperature Refrigeration, Commercial Cold Storage, Aquatic Products Industry, Central Air Conditioning
